Response to Amendment

Amendment should list claim 258 as also having been canceled.

Double Patenting

Claims 203, 204, 217, 218, 255 and 256 remain provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 191-202 and 205-216 of copending Application No. 10/607,863. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the instant application as generic so as to be anticipated by the claims of '863 application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Allowable Subject Matter

Claims 203, 204, 217, 218, 255 and 256 would be allowable with a proper Terminal Disclaimer or other action to avoid the double patenting rejection.
